STEP INTO THE FUTURE WITH US

WWW.ROYALCANIN.CO.UK
WWW.ROYALCANIN.IE

UP TO 35% OF CATS OR DOGS CURRENTLY TREATED FOR A SPECIFIC DISEASE MAY ALSO SUFFER FROM MULTIPLE DISEASES⁽¹⁾

⁽¹⁾ Survey conducted with practising vets in France, UK and US (n=370) for Royal Canin in 2013.
* Data for UK (n=120) and France (n=122) averaged to represent Europe.

Historically, veterinary professionals had to choose which condition to provide nutritional support for.

WHAT IF YOU NO LONGER HAD TO CHOOSE?

VETERINARY DIET

The only choice you
need to make

WHAT'S DIFFERENT ABOUT ROYAL CANIN[®]'S MULTIFUNCTION PROGRAMME?

- Continued research and development have allowed the formulation of diets which fully meet the nutritional requirements of cats and dogs with multiple conditions
- A novel online ordering system allows veterinary practices to provide this growing range of diets without compromising stock holding capacity
- Repeat ordering through the practice reinforces the need for ongoing contact between pets with multiple diseases and the veterinary team
