

HELP TO MAINTAIN IDEAL BODYWEIGHT IN NEUTERED CATS AND REINFORCE YOUR RECOMMENDATION

NEUTERED SATIETY BALANCE

Neutering causes changes in a cat's metabolism, including a reduction in activity and an increased food intake, which can lead to weight gain.

Recommending a diet that meets the nutritional needs of neutered cats can help to support an ideal bodyweight.

DELISTING

With the delisting of NEUTERED YOUNG MALE and NEUTERED YOUNG FEMALE in June 2021, NEUTERED SATIETY BALANCE is our nutritional recommendation for neutered cats.

MEET THE NUTRITIONAL NEEDS OF NEUTERED CATS

ROYAL CANIN® NEUTERED SATIETY BALANCE diet

contains:

- A unique formula with adapted protein that helps support muscle mass.
- **Soluble and insoluble fibres**, including psyllium, which help to limit spontaneous consumption and therefore energy intake.
- **L-carnitine** to help support healthy fat metabolism
- **S/O Index** which helps to create a urinary environment unfavourable to the formation of struvite and calcium oxalate stones.

	Neutered Young Female	Neutered Young Male	NEUTERED SATIETY BALANCE	
Metabolisable Energy (NRC 2006 Crude Fibre)	361.8 kcal	358.3 kcal	336.6 kcal	per 100g as fed
Protein	37g	40g	35g	per 100g as fed
Dietary fibre	11g	11.7g	18.2g	per 100g as fed
Fat content	10g	10g	10g	per 100g as fed
Carbohydrate	28.1g	23.9g	22g	per 100g as fed
L-carnitine	5mg	20mg	20mg	per 100g as fed

ENCOURAGE OWNER COMPLIANCE BY RECOMMENDING A TAILORED NUTRITIONAL SOLUTION FOR THEIR NEUTERED CAT

Recommend **ROYAL CANIN® NEUTERED SATIETY BALANCE** to help maintain an ideal bodyweight after neutering. **NEUTERED SATIETY BALANCE** contains an adapted calorie content, as well as a blend of fibres which help **limit spontaneous consumption**, and therefore energy intake.

Kibbles specially designed to **help maintain feeding volumes**.

COMBINE NEUTERED SATIETY BALANCE WET AND DRY FOOD

**NEUTERED
BALANCE**

LEAN BODY MASS

High protein content to help support maintenance of lean body mass.

**NEUTERED
MAINTENANCE**

IDEAL BODYWEIGHT

Moderate calorie content to help maintain an ideal bodyweight.

Clear mix feeding guidelines to support your nutritional recommendation and help to ensure a healthy daily food portion for neutered cats.

SUPPORT YOUR CONVERSATION WITH CLIENTS

Support your clients cats' transition from their existing diet to **NEUTERED SATIETY BALANCE** with our free transition boxes.

These boxes are free of charge for both practices and your clients. For every purchase of **NEUTERED YOUNG MALE** or **NEUTERED YOUNG FEMALE**, you will receive a free transition box containing a 400g bag of **NEUTERED SATIETY BALANCE** for your client and their cat to try.
